

Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

- 1-23. (Canceled)
24. (Currently Amended) An electro-optical device, comprising:
 - a first ~~electrode~~ electrode;
 - an electro-optical layer;
 - a second electrode;
 - an ultraviolet absorbing layer comprising a semiconductor material having photocatalyst activity, wherein the semiconductor is selected from the group consisting of titanium oxide, strontium titanate, tin oxide, niobium oxide, indium oxide, and gallium oxide; and
 - a gas barrier layer, each layer being laminated in sequence on a substrate.
25. (Original) The electro-optical device according to claim 24,
 - a protecting layer is provided on the gas barrier layer.
26. (Original) The electro-optical device according to claim 25,
 - a surface protecting layer provided on the protecting layer.
27. (Original) An electronic apparatus, comprising:
 - the electro-optical device according to claim 24.
